Front Cover: The four figures are from enclosed article titled "Co-authorship in Italian Workshops on Population Studies: An Analysis with a Network Approach" by Giulia Rivellini and Laura Terzera. Images display collaboration networks observed cross-sectionally for each of the four national conferences on population studies (*Giornate di Studio sulla Popolazione*). The nodes are authors, while the relationship that links them together is their collaboration in writing and/or preparing a presentation. The network is observed by gender (shape), affiliation (color), number of contributions (size of nodes), and number of collaborations inside the same research group (line thickness).
